

Emergency Services

Welcome to the St. Mary's Emergency Department. It is the mission of the St. Mary's Emergency Department to provide you efficient, compassionate, excellent emergency care. Anything less is unacceptable. In life, medical emergencies happen. We know this to be true. However, your time spent in the emergency department doesn't have to be traumatic, especially if you know what to expect.

Quick Stats 2009

- Average number of patients treated daily: 100
- Number of patients treated each year: 34,000
- All registered nurses in the ED with special training in critical and life threatening injuries
- Emergency physicians who rank in the 99th percentile nationally in patient satisfaction
- Nationally certified Chest Pain Center

Staffing

Physicians – With a fully-staffed emergency physician team, Capital Emergency Physicians (CEP) has a 20-year stellar track record with St. Mary's. In fact, patient satisfaction with our emergency physicians is consistently in the 99th percentile nationally. Fourteen out of 15 of our emergency physicians are board certified.

Registered Nurses – In addition to friendly, compassionate care, the emergency department nurses are specially trained in emergency medicine, including extensive training in trauma, advanced cardiac life support and pediatric advanced life support. St. Mary's ED is the only ED in town staffed with 100% registered nurses, 39 in total, which means all are nurses are certified to provide exceptional emergency care.
